

## Call for Papers: Special Focus on Refugee Policy

*European Policy Analysis (EPA)* is a double blind peer-reviewed journal on policy research with an emphasis on European countries, issues and studies (and/or) which follows a comparative approach (and/or) which contributes to the theoretical understanding of policy research under the aegis of the Policy Studies Organization (PSO). It appears twice a year, in spring and in fall, as online, e-book and print version. General editors are Nils C. Bandelow (Braunschweig/Germany), Peter Biegelbauer (Wien/Austria), Fritz Sager (Bern/Switzerland) and Klaus Schubert (Münster/Germany). Please visit <http://www.ipsonet.org/publications/open-access/epa> for more information about the journal.

EPA publishes both single articles and articles on a special focus that can also be co-edited by guest editors, who select papers and organize the blind peer reviews. You are welcome to propose any topic that falls into the scope of the journal. For the next issues, EPA especially looks for papers and guest editors who contribute to or organize a special issue for the following topic:

### “Refugee Policy”

The special focus should include theoretical and empirical contributions to this important area from different perspectives.

The numbers of refugees are increasing and with migration, the challenges of refugee policy enlarge. European states meet these new challenges in different ways. Developments towards a common EU immigration policy are a central subject for debate as well as the different views on that policy field of the EU member states or other European countries. Papers concerning this issue could refer to:

- Refugee policy in a selected European country (comparative perspectives are particularly welcomed)
- Diverging refugee policies in certain types of welfare states
- EU immigration policy
- Combating causes for migration and flight

Please send your submissions to [epa@politikfeldanalyse.de](mailto:epa@politikfeldanalyse.de). The deadline is set on June, 30<sup>th</sup> for the EPA issue 02/2016 and December, 31<sup>st</sup> for the EPA issue 01/2017. For more information, please call +49 (0)531 391 8906.
